Dear Ms Hesse;

This settlement is not in the best interests of consumers here in the US or anywhere. It is not in the interest of our personal autonomies and freedoms. Microsoft must have platforms that are compatible with unix and others that may develop.

Diversity and democracy are inseparable. If Microsoft Corporation cannot cooperate with its competitors, then it is not a good corporate citizen of the United States or of the Global community.

Please reconsider this settlement which I feel will substantially destroy the autonomy of people world wide.

Sincerely,  
Elizabeth Braude
